ANNOUNCEMENTS.

For State Treasurer

We are authorized to announceth. H. HEN-NINGER, Wayne county, a candidate for the office of State Treasurer, subject to the action of the Democratic party. fourth name on the paper and the amount is \$25, and we would like our ungenerous friends to know that we pay three times \$5 every year in taxes to help pay the News for doing work that we could do

On the first and fourth pages

we present the pictures of the Fiscal Court of Adair county; also the bridge erected last year. In the limited space allotted to the work we could not do justice, but under the circumstances have done the best we could, dealing fairly with each member. This matter was delayed much longer than we intended, but the delay was due to securing photos and not a fault of ours. We desire to call the attention of the Court to the fact that Adair county was one hundred years old in 1902 and in that period of time but little substantial progress has been made. We have been dragging along, doing no better than many counties whose resources are not one-fourth of ours and whose topography and geographical position not one-half so inviting to arouse and stimulate public spirit. We call your attention to another fact and that is the people of this county are more thoroughly aroused to the worth of bridging our streams and improving our roads than any other county in Southern Kentucky; that they not only indorse such levies to accomplish such results, but are actually demanding them. We believe that a canvass of the tax-payers of this county would reveal the fact that full three-fourths of them favor your course and that the largest payers of taxes would almost be a unit for such improvements. We recognize public sentiment a strong power. No individual or Court can successfully fight it. This being true and public sentiment demanding a forward move, the time has come when the Fiscal Court should keep moving in the same direction as will accomplish the results desired. Again, no magistrate is elected to merely guard the interest of his district alone. He is a member of the County Court and as county irrespective of the locality in which the improvement is to be made. It is not a district affair, but a county. It is not the duty of any member of the Court to fight any move that advances the interest of the county because it does not directly apply to his section. The watchword should be, lift Adair county up to the plane that her position and resources en-

People and stock throughout the whole country suffered on account of the severe cold weather last week. There was a strong gale and several lives were lost at Paducah on account of the upsetting of a house boat. The rivers and creeks were high, roads blockaded and rural mails knocked out, and on many roads navigation suspended. In cities and along railroads freezing people raided coal cars. The town of Salyersville, this State, was under water, and the officials of Augusta, Ky., confiscated coal to relieve suffering families. The coldest weather in Kentucky for years in February,

Frank James and Cole Younger, who in other days were notorious bank and train robbers, have purchased a Wild West show and will take the road. There is no telling how many men these former bandits have murdered and robbed, and an exhibition or any kind of enterprise managed by them should not be encouraged. Men who confederate together for the purpose of plundering and taking suicide for the reason that a newsthe lives of their fellowmen should look up a rope. On the 29th of nonneing a man as a "proven liar," April, 1878, they robbed the bank "scoundrel," etc., etc., as Gonat this place and murdered the zales did Tillman is simply invitcashier, Mr. R. A.
